

# About us ...

Primrose Hospice was established in 1987 in response to the need for a community-based palliative day care service for people with cancer and their families, from the time of diagnosis. The hospice supports adults over the age of 18, living at home with cancer and other life-threatening illnesses.

We offer a high quality, effective and responsive service appropriate to the needs of the individual, whatever the stage of their illness.

One very much valued area of the work at Primrose is that undertaken by the Family Support Team. The team, led by a qualified social worker consists of a number of skilled staff and volunteers providing a range of psychological services. Care is extended to family and friends of patients facing the practical and emotional challenges relating to the impending loss of a loved one and extends into and beyond bereavement.

Primrose is an independent charity and our services are free of charge to those who need us. To continue our high standard of care to patients in the area, we look to our local community to help us raise the £1.5 million we need each year.

By supporting the Primrose Lottery not only will you have the chance to win, you will also be helping us to meet the costs of our vital care.

The Primrose Hospice centre of care is an independent charity, offering an advisory and support service to patients with cancer and other life threatening illnesses.
